SS3/6 Alà dei Sardi

km. 8.17

Come la precedente, si sviluppa lungo la SS389, sempre su strada a due corsie che offre spazio per le traiettorie e una guida più scorrevole. Leggermente più estesa, nel tratto finale offre velocità di punta notevoli, risultando molto spettacolare.

Like the previous one, it develops along the SS389, again on a two-lane road that offers space for trajectories and smoother driving. Slightly longer, in the final section it offers notable top speeds, making it very spectacular.
